ELECTRIC CARGO VEHICLE

CROC EV

Two wheels in front, one behind, and a lockable 380-litre box ahead of the driver. Built on our RT100 platform, ARAI certified, and registered as an e-cart, a commercial vehicle.

Rated payload, 100 kg with overload	Lockable cargo box	Overall width	Range, one or two batteries	Charge on a 5 A socket
80 kg	**380 L**	**930 mm**	**40–80 km**	**2 h 30**

LOAD BODY

Payload	**80 kg, plus 25% overload allowance**
Cargo box	**380 litres, lockable**
Box position	**In front of the driver**
Box build	**FRP with steel reinforcement**

POWERTRAIN

Motor	**Mid-drive PMSM, 1.3 kW rated, 1.9 kW peak**
Battery	**2 kWh lithium-ion NMC, removable**
Range	**40 km, 80 km with a second battery**
Top speed	**25 km/h**
Charging	**2 h 30 min, 750 W charger, 5 A plug**
Drive	**Single rear wheel, gearbox and chain**

SAFETY AND TRACKING

Telematics	**GPS tracking, geo-fencing, remote lock**
Starting	**Brake-to-start, sit-to-start, auto-off**
Battery care	**Smart thermal warning**
Cargo lock	**Smart e-lock, optional**

DIMENSIONS

Length × width × height	**2225 × 930 × 1270 mm**
Wheelbase	**1440 mm**
Ground clearance	**170 mm**
Kerb weight	**220 kg**

CHASSIS

Layout	**Reverse trike: two wheels in front, one behind**
Frame	**Ladder and space frame**
Front suspension	**Double wishbone**
Rear suspension	**Trailing arm, twin shock absorbers**
Steering	**Handlebar**

REGISTRATION

Category	**E-cart, registered commercial vehicle**
Certification	**ARAI certified**
Seating	**Driver only, with backrest**
Platform	**RT100, our platform**

From the certified specification, for CROC EV 2 kWh. The rest of the range, and the models coming next, are on page 3. Speedloop Auto Private Limited, India. Edition 5, 22 October 2026.

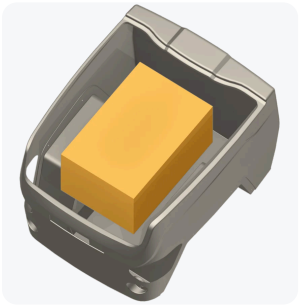

INSIDE THE CROC EV BOX

WHAT FITS IN THE BOX

The box sits ahead of the driver. The two front wheel arches rise inside it, and a deeper well runs between them, front to back.

Front to back	**932 mm**
Width	**741 mm**
Depth to the wheel arches	**412 mm**
Lower well between the arches	**366 mm wide, 277 mm deeper**
Volume	**380 litres, lockable**
Payload	**80 kg, 100 kg with the 25% overload allowance**

1 CRATE

600 × 400 × 300 mm

Rests on both wheel arches; its top sits 144 mm below the rim.

Weight: whatever is in it, up to the payload.

6 MILK CANS

10 L, about 250 mm across x 400 mm tall

About 13 kg each when full: 78 kg, inside the 80 kg payload.

20 L cans (about 300 mm across) are too wide for most of the well.

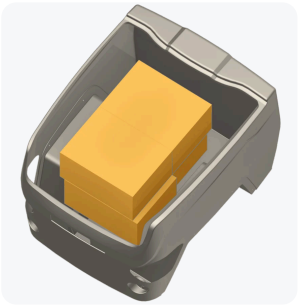

3 BOTTLE CRATES

24 bottles, about 400 × 300 × 250 mm

About 10 kg each when full: 30 kg in all.

All three rest at wheel-arch height, with the well free below.

4 PARCEL BOXES

400 × 300 × 200 mm

About 5 kg each: 20 kg in all.

Or 11 smaller boxes of 300 × 250 × 150 mm.

How we checked. Each load was fitted in the CROC EV box with the lid closed: nothing touches the box, the lid or any other part, and each item rests on the floor, a wheel arch or another item. Sizes and weights are typical examples; we do not supply these products. Careful loading may fit more; the payload limit applies either way.

TELL US WHAT YOU CARRY.

We will check it against the CAD and reply within one working day.
